# NOTICE.

---

SALEM, OHIO, 1898.

We can always name much better prices, when quoting direct, and request that when in want of any work in my line you would **write for prices**, giving full particulars as to quantity wanted and design numbers. For price on special designs, send architects' drawings or write for my representative to come and estimate.

Yours Respectfully,

**W. H. MULLINS.**

## INTRODUCTION.

E have compiled and issued this catalogue especially for the use of the architect, contractor and those who contemplate building, showing a complete assortment of designs of various classes of work, which will enable them to select from stock designs, shown herein, cornices, building fronts, wrought iron work, etc., suitable for almost every style of building. The work shown in this catalogue can be furnished at a much lower cost than if made from special designs, as we make same in large quantities by steam power machinery, and the cost of patterns and placing of dies is thereby divided among a large number, whereas, if special designs are required, these items of cost are necessarily included in the cost of one job.

All work shown in this catalogue, unless otherwise specified, is priced to be made of the very best quality of crimped galvanized iron or steel, ornamented with heavy stamped zinc ornaments, all joints soldered and riveted, and all parts made in the best manner and of the most improved construction known to the trade. All cornices are furnished complete in as large sections as convenient for transportation, with all mouldings, brackets and ornaments attached, so that only vertical joints are necessary at building, and every part marked and numbered, so that by the aid of construction drawings and directions, which are furnished with the work, any carpenter, tinner or handy man can readily put it on the building. If desired, we can also furnish them in knock-down shape, that is to say, the mouldings and enrichments in separate, straight lengths; the brackets, trusses, panels, miters, etc., complete, joined, but not put together in large sections. If ordered in this manner, much better freight rates can be secured, and with the complete construction drawings furnished with each job, they can be very readily sectioned together by any good tinner.

Any of the designs shown are subject to modification, and can be either enlarged or reduced and changed to suit your requirements, but any variation from catalogue sizes will necessitate an increase of cost, as our dies and patterns are all made for catalogue sizes. Prices for making any of the designs to special sizes will be quoted on application.

Most of the work shown in the catalogue can be readily reproduced in copper, and prices for making same in this metal will be quoted on application. The work, when made in this material, after a short exposure to the weather, assumes a rich, dark bronze color, which adds greatly to its artistic effect.

We show many designs of cornices, varying in size from 24 inches in depth to 75 inches, with a corresponding variation in the projection and ornamentation of same; also several designs of window and door caps, and from pages 10 to 27 we show a large variety of superb designs for sheet metal building fronts. On the rock face fronts we make the imitation rock work very rough and bold, making a handsome and durable front for the building.

We wish to call particular attention to our large variety of designs for Finials and Weather Vanes, our Patent Spanish Tile Roofing Plates and Roof Trimmings, Wrought Iron Grilles and Awnings, Stamped and Embossed Ceilings (especially our new Rococo design), Ceiling Center Pieces, Skylights and Embossed Sheet Metal Boats, all of which are fully described under the proper headings.

Correspondence with architects, builders and contractors solicited. All inquiries cheerfully answered, and prompt attention given to any estimates or work entrusted to us.

Liberal discount to the trade.

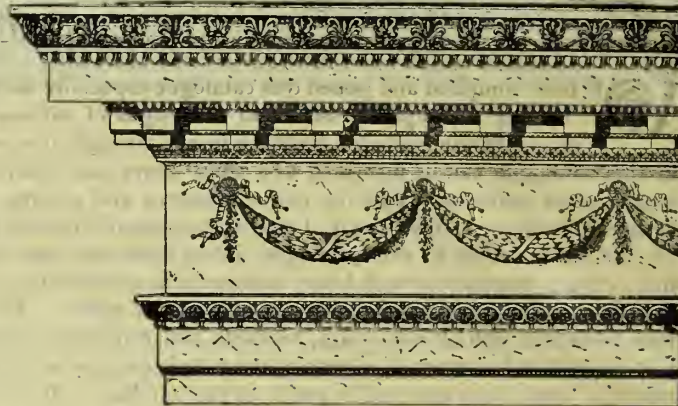

Yours very truly,

W. H. MÜLLINS.

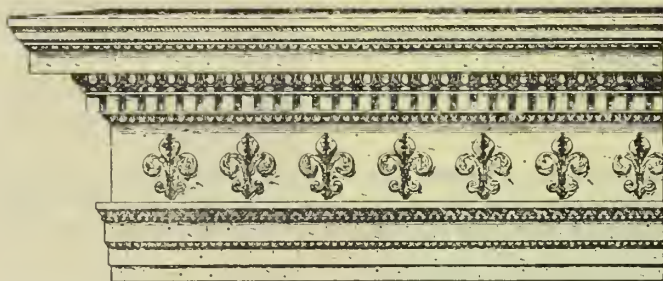

SALEM, OHIO, U. S. A.

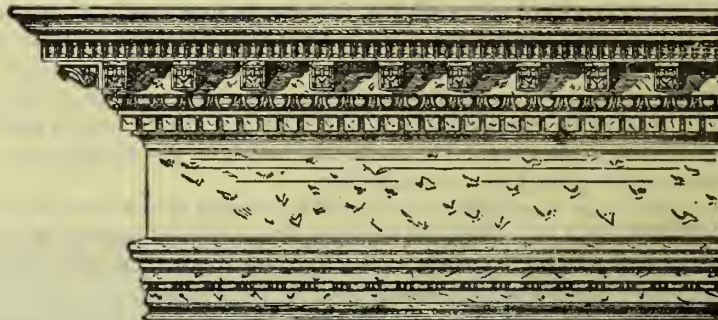

Cornice No. 7004. Height, 45 inches; projection, 23 inches.  
Price, \$3.00 per foot, complete in large sections, including Wrought Iron Lookouts. Mitres, \$1.85 each.

Cornice No. 7012. Height, 72 inches; projection, 29 inches.  
Price, \$4.35 per foot, complete, in sections, including Wrought Iron Braces. Mitres, \$3.00 each.

Cornice No. 7009. Height, 50 inches; projection, 20 inches.  
Price, \$2.20 per foot, complete, in large sections, including Wrought Iron Lookouts. Mitres, \$1.70 each.

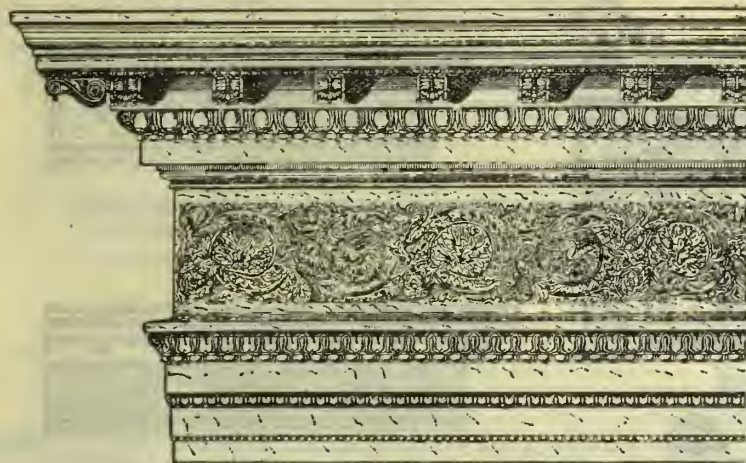

Cornice No. 7011. Height, 52 inches; projection, 23 inches.  
Price, \$2.70 per foot, complete, in large sections, including Wrought Iron Lookouts. Mitres, \$1.85 each.

### SHEET METAL CORNICES.

The durability and artistic effect of Cornices shown on pages 2 to 5 will be greatly enhanced if made in Copper prices for same, if made in this metal, will be quoted on application. Send us your drawings and get prices on your own or your architect's special designs. Any variation in size of Cornices shown in this catalogue will necessitate an increase in cost. Prices for any desired change quoted on application. In ordering, always state whether you want work sent by *Freight* or *Express*. Parties unknown to us will save time and annoyance by sending reference as to financial standing at time of sending order.

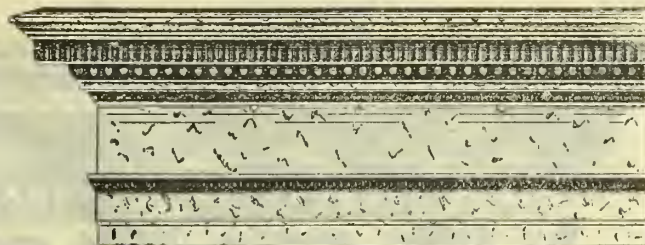

Cornice No. 7008. Height, 68 inches; projection, 26 inches.  
Price, \$3.35 per foot, complete, in sections, including Wrought Iron Lookouts. Mitres, \$2.00 each.

Cornice No. 7002. Height, 40 inches; projection, 15 inches.  
Price, \$2.00 per foot, complete, in large sections, including Wrought Iron Lookouts. Mitres, \$1.35 each.

Cornice No. 7006. Height, 45 inches; projection, 18 inches.  
Price, \$1.50 per foot, complete, in sections, including Wrought Iron Lookouts. Mitres, \$1.70 each.

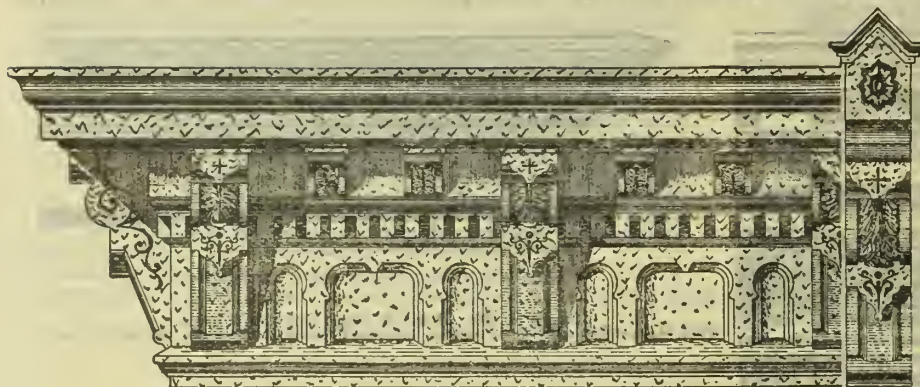

Cornice No. 7003. Height, 50 inches; projection, 26 inches.  
Price, \$3.35 per foot, complete, in large sections, including Wrought Iron Lookouts. Mitres, \$2.00 each.

### CORNICES.

In ordering, give dimensions from out to out of your building. Roofs of cornices not furnished at prices quoted, as these should be made of tin or of material of which roof of building is made.

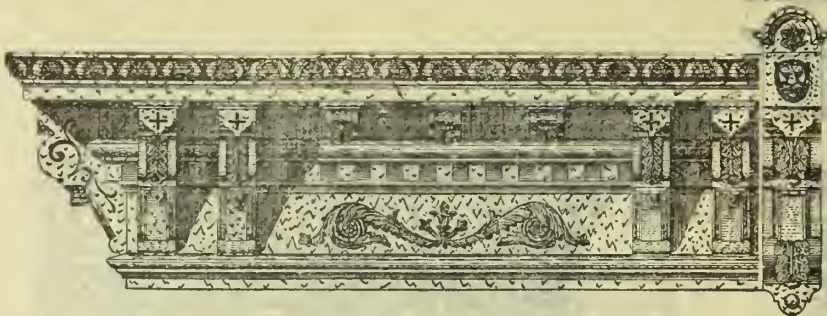

All prices for Cornice work in catalogue are based on using best quality of Crimped Galvanized Iron, with heavy, bold stamped Zinc Ornaments.

The above Cornices made in Copper are very beautiful, and, while they will cost slightly more in this material than if made in Galvanized Iron, as priced above, they are sufficiently artistic and attractive to warrant the expenditure. In Copper these Cornices will last for ages. Prices of above in Copper on application. Copper Cornices should not be painted, as when exposed to the weather for a short time it assumes a beautiful dark bronze color.

Cornice No. 677. Height, 63 inches; projection, 36 inches.

Price, \$4.00 per foot, complete, in sections, including Wrought Iron Lookouts. Mitres, \$2.00 each. Trusses, \$12.00 each.

Cornice No. 949. Height, 56 inches; projection, 30 inches.

Price, \$4.00 per foot, complete, in sections, including Wrought Iron Lookouts. Mitres, \$2.00 each. Trusses, \$12.00 each.

Cornice No. 380. Height, 44 inches; projection, 20 inches.  
Per foot, \$1.55. Mitres, \$1.20 each.

Cornice No. 381. Height, 32 inches; projection, 15 inches. Per foot, \$1.70.  
Mitres, \$1.00 each.

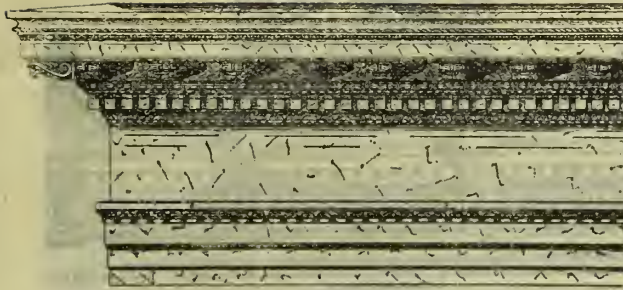

Cornice No. 377. Height, 36 inches; projection, 10 1/4 inches. Per foot, \$1.70.  
Mitres, \$1.00 each.

### CORNICES.

New customers should always give reference as to their financial responsibility. In ordering, always give full shipping directions and state whether to ship by *Freight or Express*.

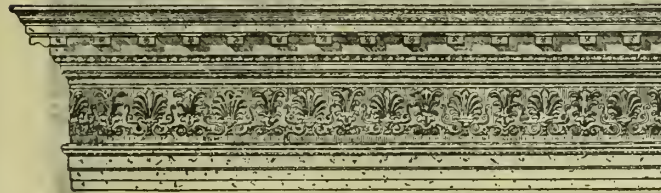

Prices named do not include covering on roof of Cornice. This should be made of same material as roof of building. All mouldings are made to extend from out to out of Cornice, with brackets, modillions, etc., riveted and soldered to same, making a rigid, durable and fire-proof construction. Price for same designs made in cold rolled Copper will be quoted on application.

Cornice No. 7010. Height, 50 inches; projection, 20 inches.  
Price, \$3.35 per foot, complete, in sections, including Wrought Iron Lookouts.  
Mitres, \$2.00 each.

This Cornice specially recommended for reproduction in Copper. Price for Copper Cornice quoted on application.

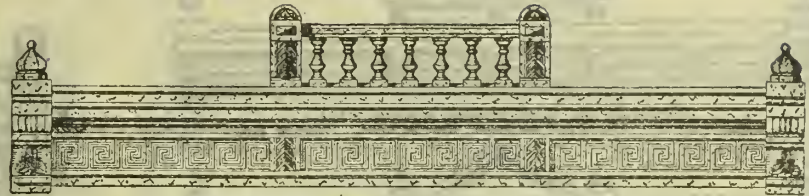

Cornice No. 7005. Height, 31 inches; projection, 11 inches.  
Price, \$1.70 per foot, complete, in sections, including Wrought Iron Lookouts.  
Mitres, \$1.20 each.

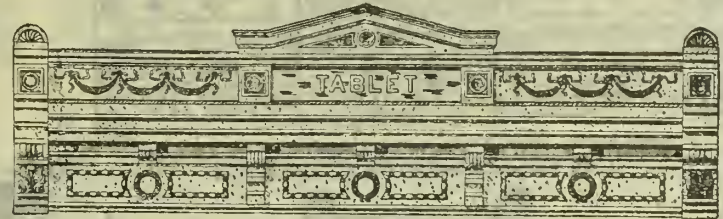

Cornice No. 7007. Height, 30 inches; projection, 11 inches.  
Price, \$2.00 per foot, complete, in large sections, including Wrought Iron Lookouts.  
Mitres, \$0.85 each.

Size of Cornice can be varied. Any change from catalogue size will be quoted on application. In ordering Cornice work, send plan of your building, giving figured measurements, and always give full and explicit shipping directions, and state whether you want work sent by Freight or Express.

Cornice No. 7055. Height, 30 inches; projection, 15 inches.  
Price, \$0.60 per foot. Trusses, \$2.00 each. Urns, \$0.50 each. Pediment, \$11.70.

Cornice No. 7049. Height, 33 1/2 inches; projection, 20 inches; balustrade, 22 inches high.  
Price, Cornice, \$0.75 per foot. Trusses, \$2.00 each. Balustrade and Pedestals, \$0.50 per foot.  
Pediment, \$4.00. Letters, \$0.31 each.

Cornice No. 7051. Height, 30 inches; projection, 15 inches.  
Price, \$0.95 per foot, including Trusses and Urns. Pediment, \$5.00. Letters, \$0.36 each.

Cornice No. 7050. Height, 30 inches; projection, 13 inches.  
Price, Cornice, including Pediment, \$1.00 per foot. Trusses, \$1.85 each. Urns, \$0.90 each.

## CORNICES

Cornice No. 7053. Height, 26 inches; projection, 15 inches.  
Cornice, \$0.55 per foot. Trusses, \$1.50 each. Urns, \$0.90 each. Pediment, \$5.00.

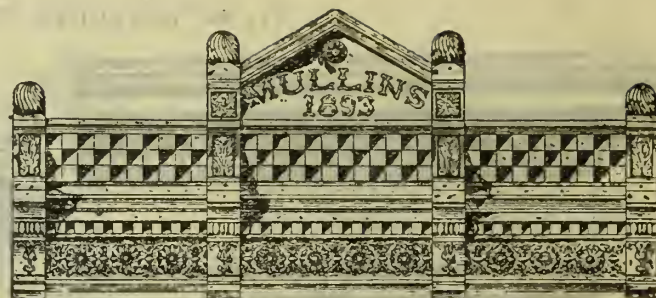

Cornice No. 7047. Height, 36 inches; projection, 21 inches; balustrade, 22 inches.  
Balustrade, including Pedestals, \$0.45 per foot. Pediment, \$2.00. Urns, \$0.50 each.  
Letters, \$0.36 each. Cornice, including Trusses, \$1.20 per foot.

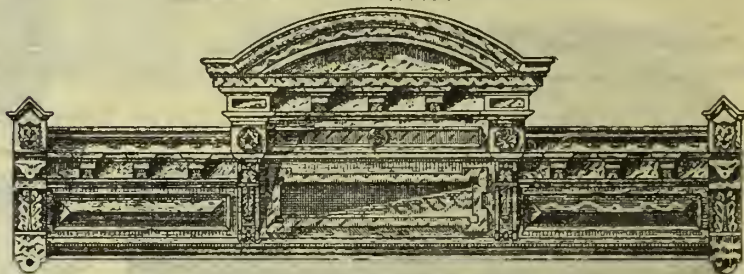

Cornice No. 7042. Height, 30 inches; projection, 18 inches.  
Cornice, \$0.70 per foot. Trusses, \$1.45 each. Urns, \$0.90 each. Pediment, \$5.35.

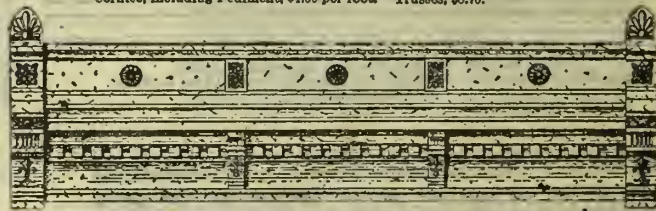

Cornice No. 7052. Height, 32 inches; projection, 20 inches.  
Cornice, per foot, \$0.75. Trusses, \$2.35 each. Urns, \$0.90 each. Pediment, \$3.35. Letters, \$0.31 each.

Cornice No. 7051. Height, 36 inches; projection, 16 inches; balustrade, 23 inches.  
Cornice, including Trusses, \$0.85 per foot. Balustrade and Pedestals, \$0.70 per foot. Pediment, \$3.00.  
Letters, \$0.36 each.

Cornice No. 462. Height, 48 inches; projection, 26 inches.  
Cornice, including Pediment, \$4.00 per foot. Trusses, \$3.70.

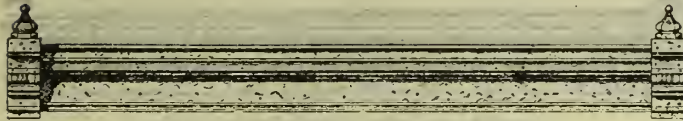

Cornice No. 7016. Height, 35 inches; projection, 24 inches; balustrade, 22 inches high.  
Cornice, \$0.60 per foot. Trusses, \$2.70 each. Balustrade and Pedestals, \$0.45 per foot.

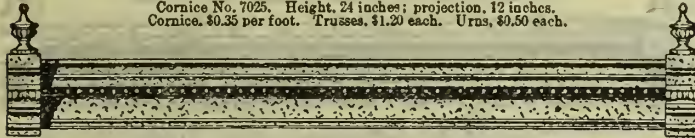

### CORNICES

Prices quoted in this catalogue, where not otherwise mentioned, are based on making work of the best quality of Galvanized Iron and Zinc. Work made in Copper will be priced on application. Roofs of Cornices not included in catalogued prices. Sizes of Cornices can be varied to suit your wants. Prices for any change from catalogue size will be quoted on application.

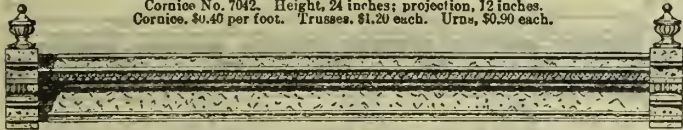

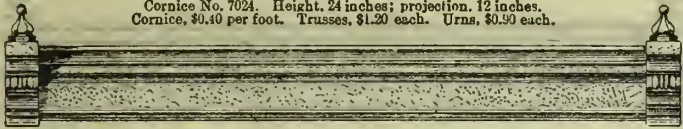

Cornice No. 7025. Height, 24 inches; projection, 12 inches.  
Cornice, \$0.35 per foot. Trusses, \$1.20 each. Urns, \$0.50 each.

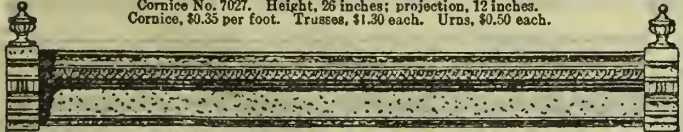

Cornice No. 7042. Height, 24 inches; projection, 12 inches.  
Cornice, \$0.40 per foot. Trusses, \$1.20 each. Urns, \$0.90 each.

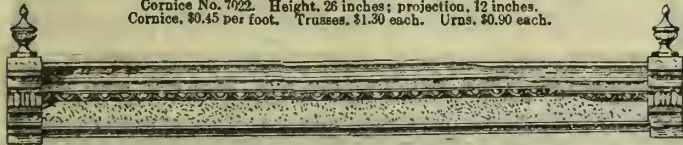

Cornice No. 7024. Height, 24 inches; projection, 12 inches.  
Cornice, \$0.40 per foot. Trusses, \$1.20 each. Urns, \$0.90 each.

Cornice No. 7027. Height, 26 inches; projection, 12 inches.  
Cornice, \$0.35 per foot. Trusses, \$1.30 each. Urns, \$0.50 each.

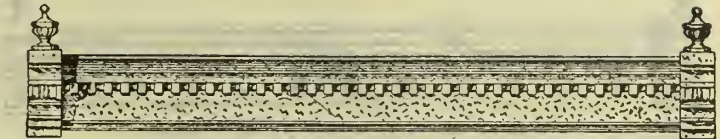

Cornice No. 7022. Height, 26 inches; projection, 12 inches.  
Cornice, \$0.45 per foot. Trusses, \$1.30 each. Urns, \$0.90 each.

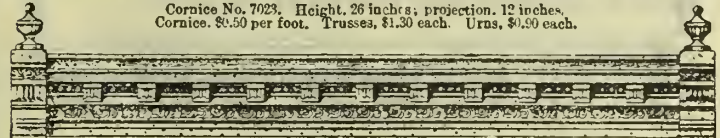

Cornice No. 7026. Height, 26 inches; projection, 12 inches.  
Cornice, \$0.40 per foot. Trusses, \$1.30 each. Urns, \$0.90 each.

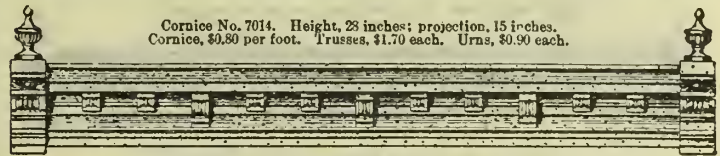

Sizes of Cornice can be varied. Prices for any change in size from those given in catalogue will be quoted on application. Write and make known your wants. All Cornice shipped complete in large sections convenient to put up. Roof of Cornice not furnished at prices quoted.

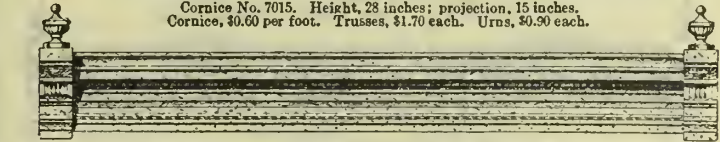

Cornice No. 7023. Height, 26 inches; projection, 12 inches.  
Cornice, \$0.50 per foot. Trusses, \$1.30 each. Urns, \$0.90 each.

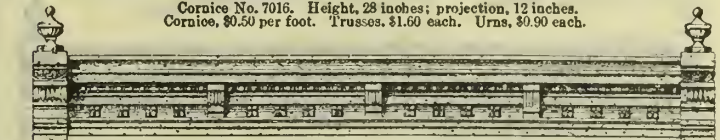

Cornice No. 7014. Height, 28 inches; projection, 15 inches.  
Cornice, \$0.80 per foot. Trusses, \$1.70 each. Urns, \$0.90 each.

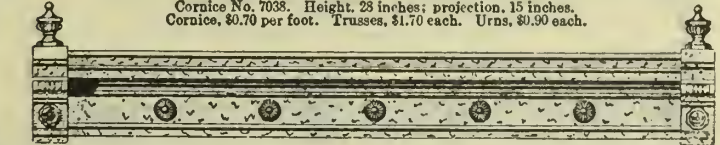

Cornice No. 7015. Height, 28 inches; projection, 15 inches.  
Cornice, \$0.60 per foot. Trusses, \$1.70 each. Urns, \$0.90 each.

Cornice No. 7016. Height, 28 inches; projection, 12 inches.  
Cornice, \$0.50 per foot. Trusses, \$1.60 each. Urns, \$0.90 each.

Cornice No. 7038. Height, 28 inches; projection, 15 inches.  
Cornice, \$0.70 per foot. Trusses, \$1.70 each. Urns, \$0.90 each.

Cornice No. 7030. Height, 30 inches; projection, 12 inches.  
Cornice, \$0.40 per foot. Trusses, \$1.60 each. Urns, \$0.90 each.

## CORNICES

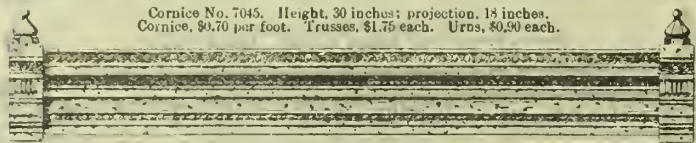

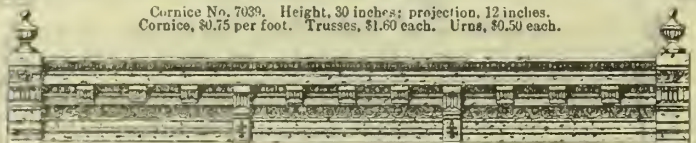

Cornice No. 7031. Height, 30 inches; projection, 18 inches.  
Cornice, \$0.55 per foot. Trusses, \$1.95 each. Urns, \$0.90 each.

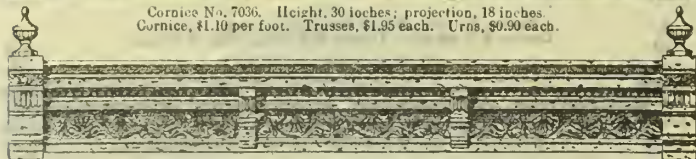

Cornice No. 7045. Height, 30 inches; projection, 18 inches.  
Cornice, \$0.70 per foot. Trusses, \$1.75 each. Urns, \$0.90 each.

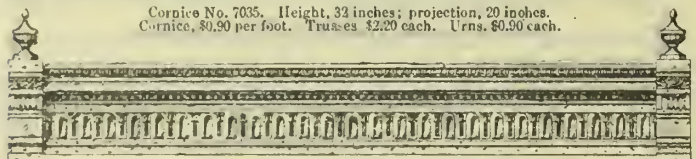

Cornice No. 7039. Height, 30 inches; projection, 12 inches.  
Cornice, \$0.75 per foot. Trusses, \$1.60 each. Urns, \$0.50 each.

Cornice No. 7036. Height, 30 inches; projection, 18 inches.  
Cornice, \$1.10 per foot. Trusses, \$1.95 each. Urns, \$0.90 each.

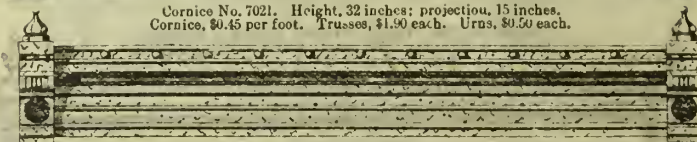

Cornice No. 7035. Height, 32 inches; projection, 20 inches.  
Cornice, \$0.90 per foot. Trusses, \$2.20 each. Urns, \$0.90 each.

Cornice No. 7040. Height, 32 inches; projection, 15 inches.  
Cornice, \$0.80 per foot. Trusses, \$1.90 each. Urns, \$0.90 each.

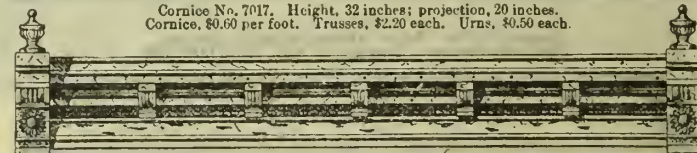

Cornice No. 7021. Height, 32 inches; projection, 15 inches.  
Cornice, \$0.45 per foot. Trusses, \$1.90 each. Urns, \$0.50 each.

Cornice No. 7029. Height, 32 inches; projection, 15 inches.  
Cornice, \$0.40 per foot. Trusses, \$1.90 each. Urns, \$0.50 each.

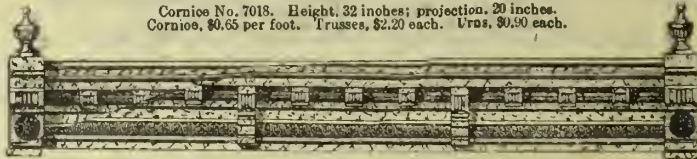

Cornice No. 7017. Height, 32 inches; projection, 20 inches.  
Cornice, \$0.60 per foot. Trusses, \$2.20 each. Urns, \$0.50 each.

Cornice No. 7034. Height, 32 inches; projection, 20 inches.  
Cornice, \$0.75 per foot. Trusses, \$2.20 each. Urns, \$0.90 each.

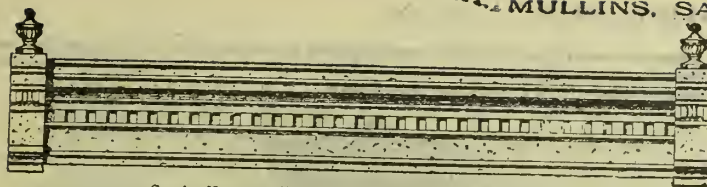

Cornice No. 7018. Height, 32 inches; projection, 20 inches.  
Cornice, \$0.65 per foot. Trusses, \$2.20 each. Urns, \$0.90 each.

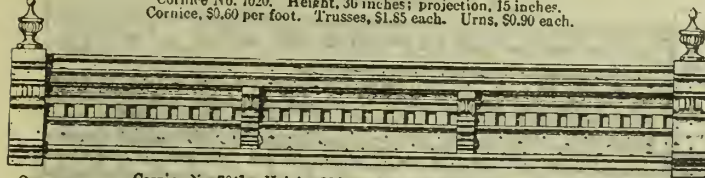

Cornice No. 7013. Height, 32 inches; projection, 20 inches.  
Cornice, \$0.85 per foot. Trusses, \$2.20 each. Urns, \$0.90 each.

#### CORNICES.

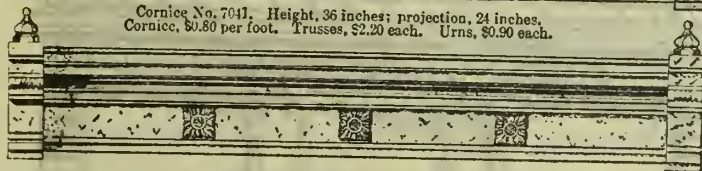

Architects and Builders will save money by selecting and specifying stock designs for cornices, as it will be found much cheaper than when special designs are made. However, where they have prepared special designs, if they will send them to us we will estimate same and return designs by first mail or express.

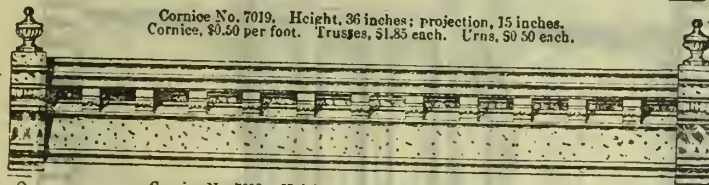

Cornice No. 7020. Height, 36 inches; projection, 15 inches.  
Cornice, \$0.60 per foot. Trusses, \$1.85 each. Urns, \$0.90 each.

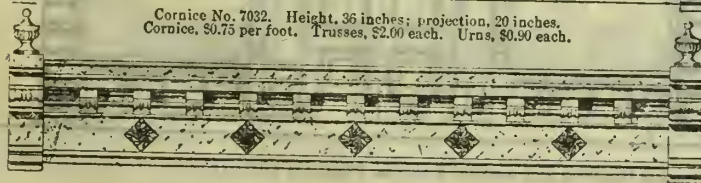

Cornice No. 7041. Height, 36 inches; projection, 24 inches.  
Cornice, \$0.80 per foot. Trusses, \$2.20 each. Urns, \$0.90 each.

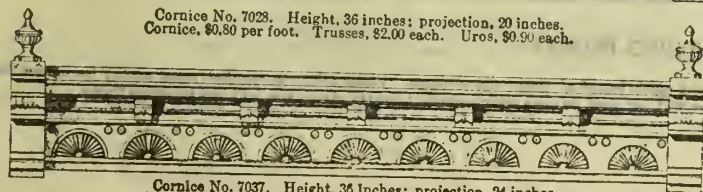

Cornice No. 7019. Height, 36 inches; projection, 15 inches.  
Cornice, \$0.50 per foot. Trusses, \$1.85 each. Urns, \$0.50 each.

Cornice No. 7032. Height, 36 inches; projection, 20 inches.  
Cornice, \$0.75 per foot. Trusses, \$2.00 each. Urns, \$0.90 each.

Cornice No. 7023. Height, 36 inches; projection, 20 inches.  
Cornice, \$0.80 per foot. Trusses, \$2.00 each. Urns, \$0.90 each.

Cornice No. 7037. Height, 36 inches; projection, 24 inches.  
Cornice, \$0.85 per foot. Trusses, \$2.20 each. Urns, \$0.90 each.

## WINDOW AND DOOR CAPS.

Window Caps, varying in size to fit window opening from 30 inches to 42 inches, will be furnished at same price; other sizes will necessitate a change of pattern and will be priced on application. Special designs and estimates furnished. Write for our prices before ordering.

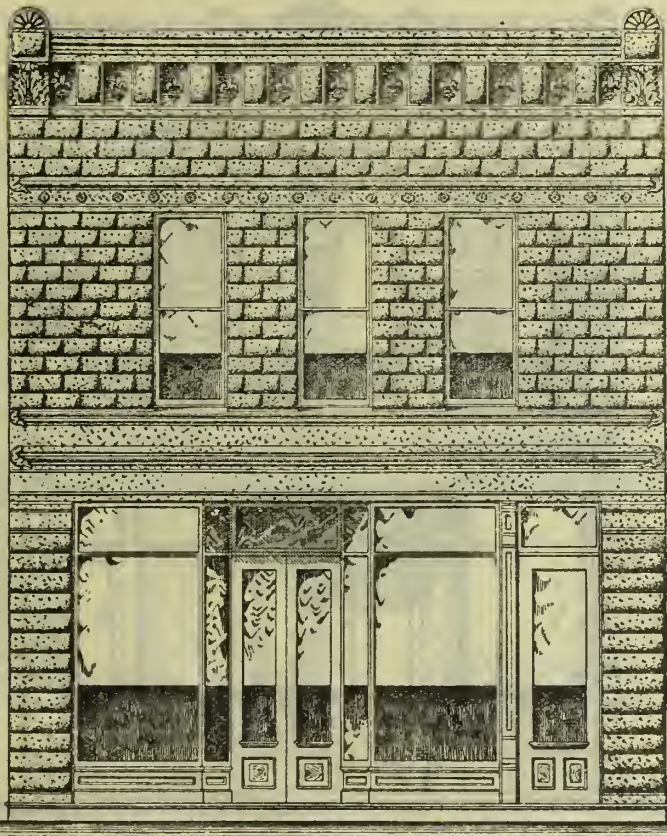

The following prices on Building Fronts are for same made in best quality Galvanized Iron, with the ornaments stamped in heavy sheet Zinc, securely soldered and riveted, and in every respect the best work known to the trade. When painted they make a very artistic and durable front. When made in sheet Copper they are practically indestructible, and the beautiful dark bronzo color which they assume after a short exposure to the atmosphere is a finish more desirable than can be obtained by the use of any other metal. Prices in Copper will be quoted on application.

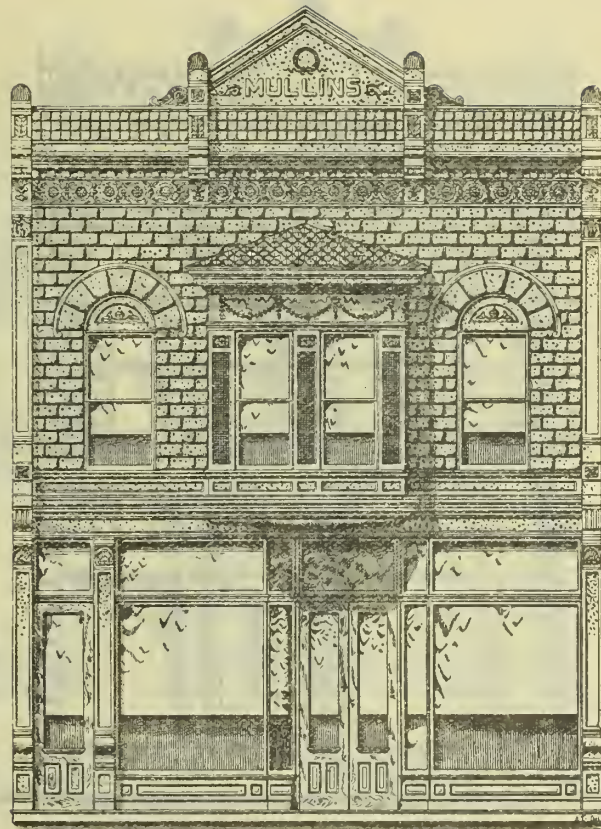

No. 7251. Stamped Rock Face Front. 46 feet wide. Price, \$184.00. Galvanized Iron Work only, including Rock Face Pilasters in first story.

### SHEET METAL BUILDING FRONTS.

Sizes of Fronts can be varied to suit your requirements, if you will send us rough sketch of front showing width, height of stories and openings. Unless otherwise specified, prices are for Galvanized Iron work only, beginning at bottom of lintel cornice and extending up. We do not furnish glass, sash or doors with our work, as these items properly belong to the planing mill and hardware trades. Sheet Metal Fronts are particularly valuable for repairing or modernizing old brick or stone buildings.

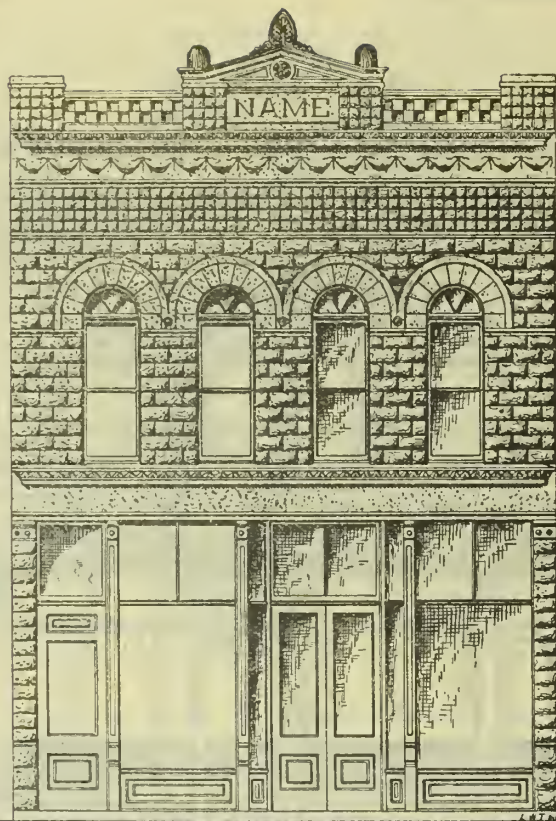

No. 7252. Stamped Rock Face Front. 25 feet wide. Price, \$134.00.  
Galvanized Iron Work only, including End Pilasters in first story.

No. 7253. Stamped Rock Face Front, with Bay Window. 30 feet wide. Price, \$300.00.  
Galvanized Iron Work only. Price given does not include columns in first story, which  
will be quoted on application.

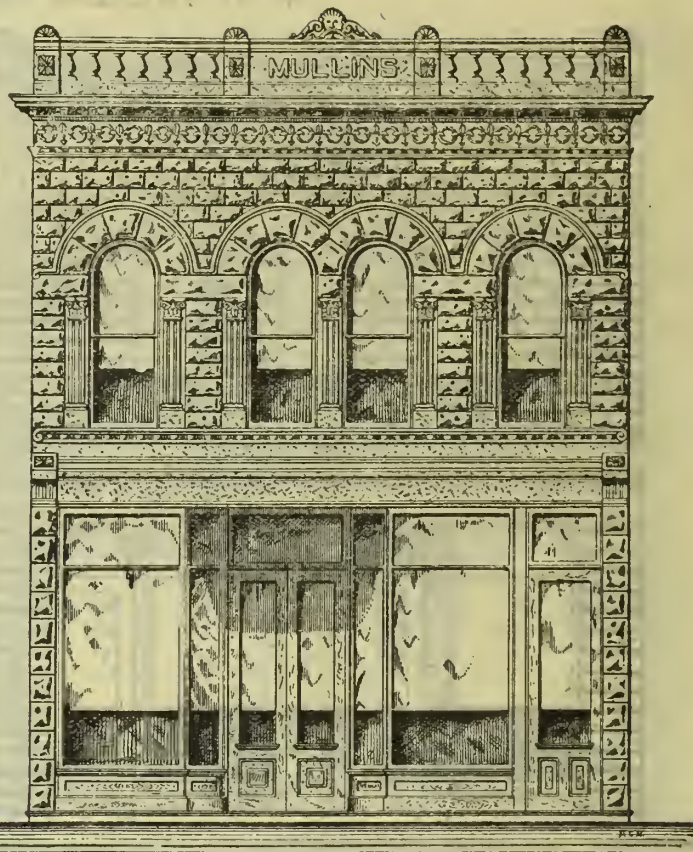

If you contemplate building, write to us for designs and prices. If catalogue does not contain what you want, it is more than probable that among our many designs we will have what you are looking for. Sizes given for designs are not arbitrary; they can be varied to suit your wants. Write, stating size of front you wish, and we will quote you price.

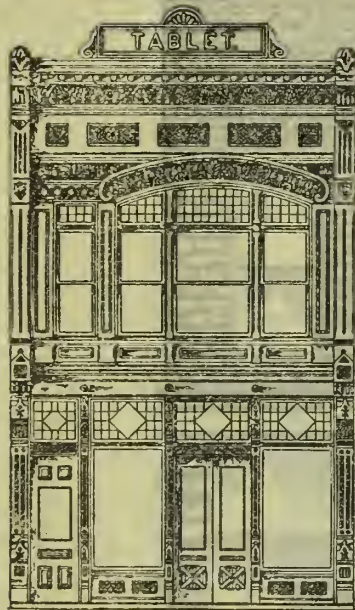

No. 7254. Stamped Rock Face Front. 25 feet wide. Price, \$187.00.  
Galvanized Iron Work only, including End Pilasters in first story.

In ordering Sheet Metal Fronts be particular to send plan and elevation of building, giving in figured measurements every detail possible, such as thickness of walls, width and height of windows and door openings and total width of building, together with thickness of floor joists and floor, height of stories and total height of building. We do not furnish wood work, glass, hardware or sills at price quoted.

No. 7255. Stamped Rock Face Front. 24 feet wide. Price, \$207.00.  
Galvanized Iron Work only, including End Pilasters in first story.

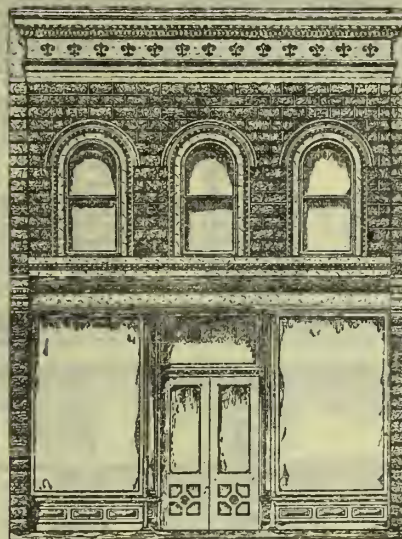

No. 368. Sheet Metal Front. 20 feet wide. Price, \$160.00.

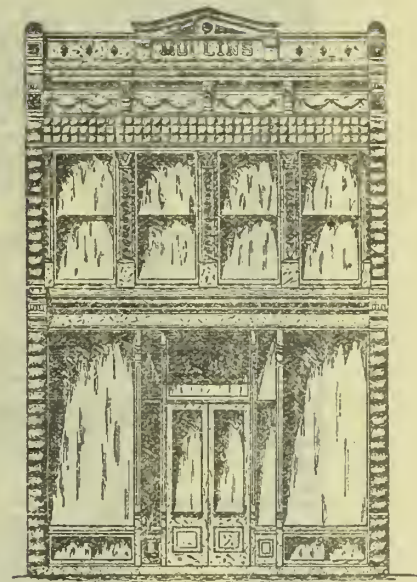

Galvanized Iron Work only.

Price given does not include columns in first story, which will be quoted on application.

No. 7114. Stamped Rock Face Front. 22 feet wide. Price, \$134.00.

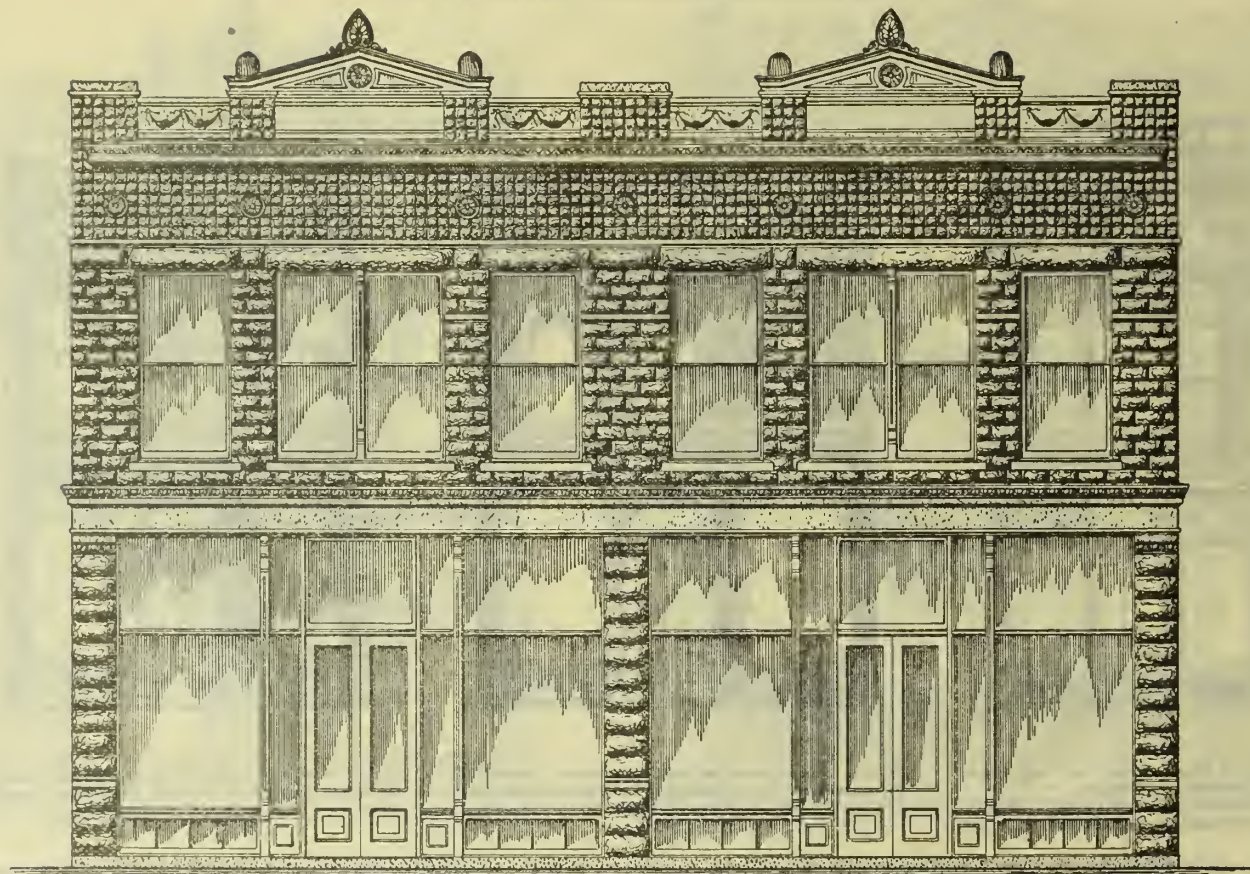

Galvanized Iron Work only, including End Pilasters in first story.

No. 7115. Stamped Rock Face Front. 20 feet wide. Price, \$124.00.

Galvanized Iron Work only, including End Pilasters in first story.

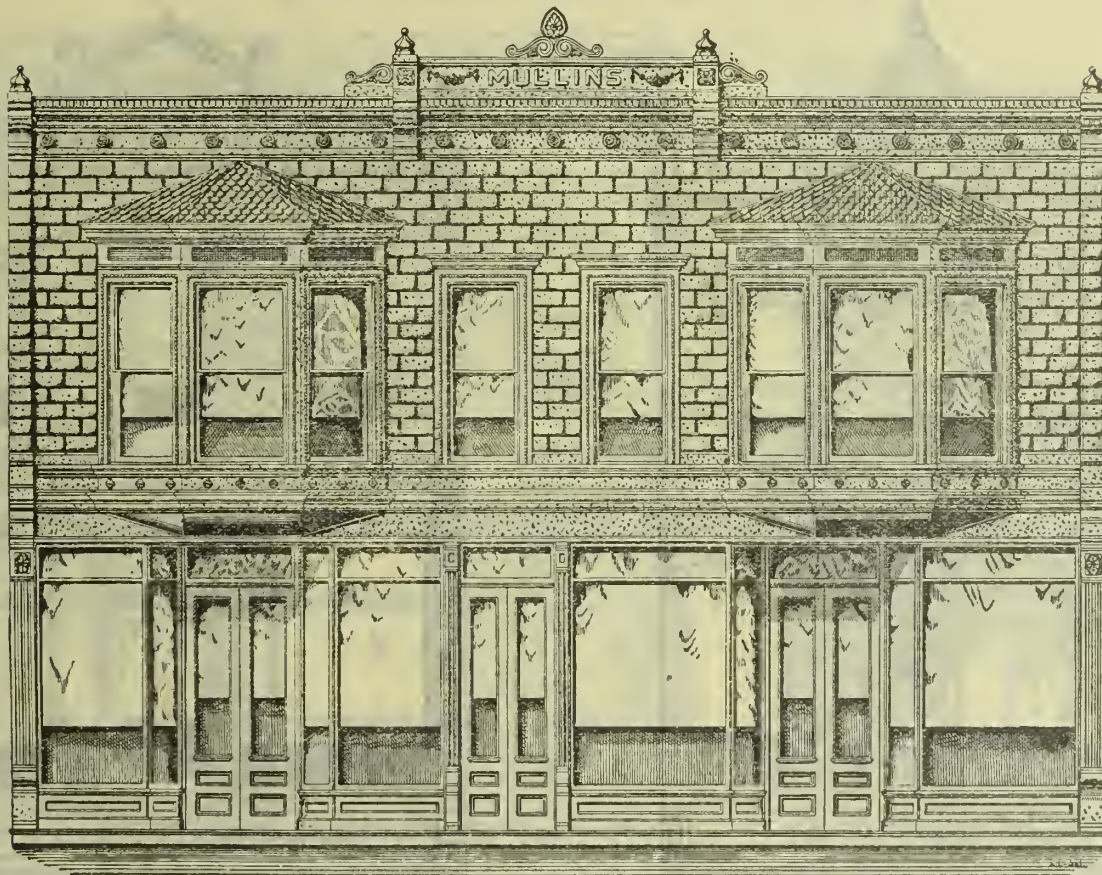

For repairing and re-modelling old buildings nothing can equal Sheet Metal, as it is light, cheap and durable, and can be used where expense would not justify use of any other material. For repairing old brick or frame buildings it is not necessary to remove the old walls, as the Sheet Metal can be fastened to the face of same at a very trifling cost. We will be pleased to make estimates and designs for modernizing old buildings by the use of Sheet Metal Fronts.

No. 7256. Stamped Rock Face Front. 50 feet wide. Price, \$327.00. Galvanized Iron Work only, including Rock Face Pilasters in first story.

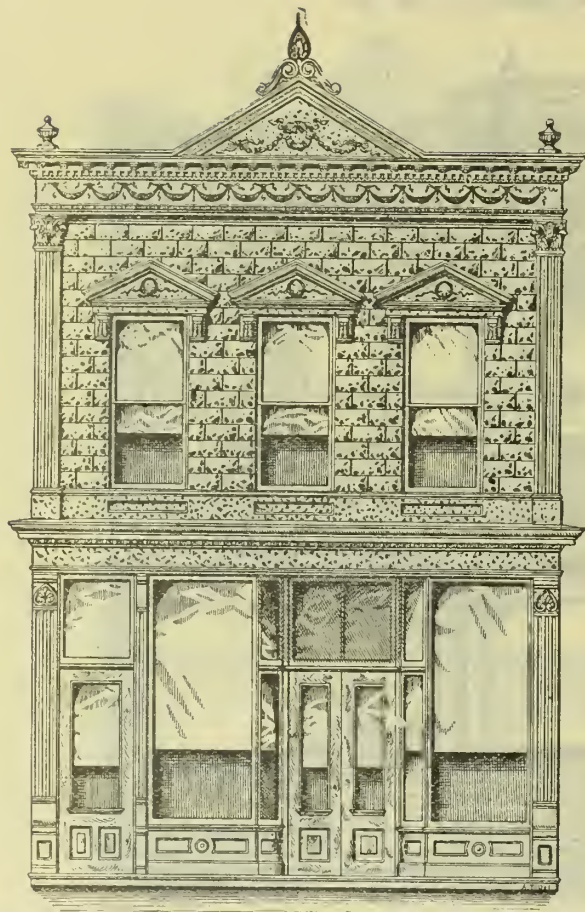

The sizes of any of the Fronts shown in catalogue can be varied to suit requirements. Special designs of Sheet Metal Fronts will be made if catalogue does not contain what you want. In writing for prices, always send plan of your building and state height of stories, thickness of floors, etc. In fact, send full description of just what you want.

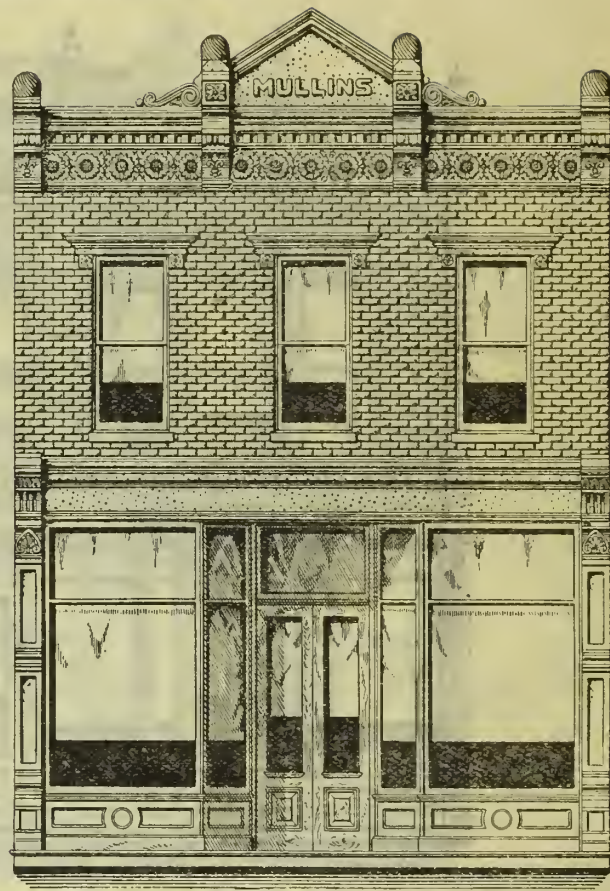

No. 7257. Stamped Rock Face Front, with Bay Windows. 45 feet wide. Price, \$300.00. Galvanized Iron Work only.  
Price given does not include columns in first story, which will be quoted on application.

This design is intended for Store Rooms on lower and Offices or Residences on second floor. The projecting bay windows throw a great amount of light into the upper story, making it particularly desirable for use mentioned. Sizes given for designs are not arbitrary; they can be varied to suit your wants. Write, stating size of front you wish, and we will quote you price.

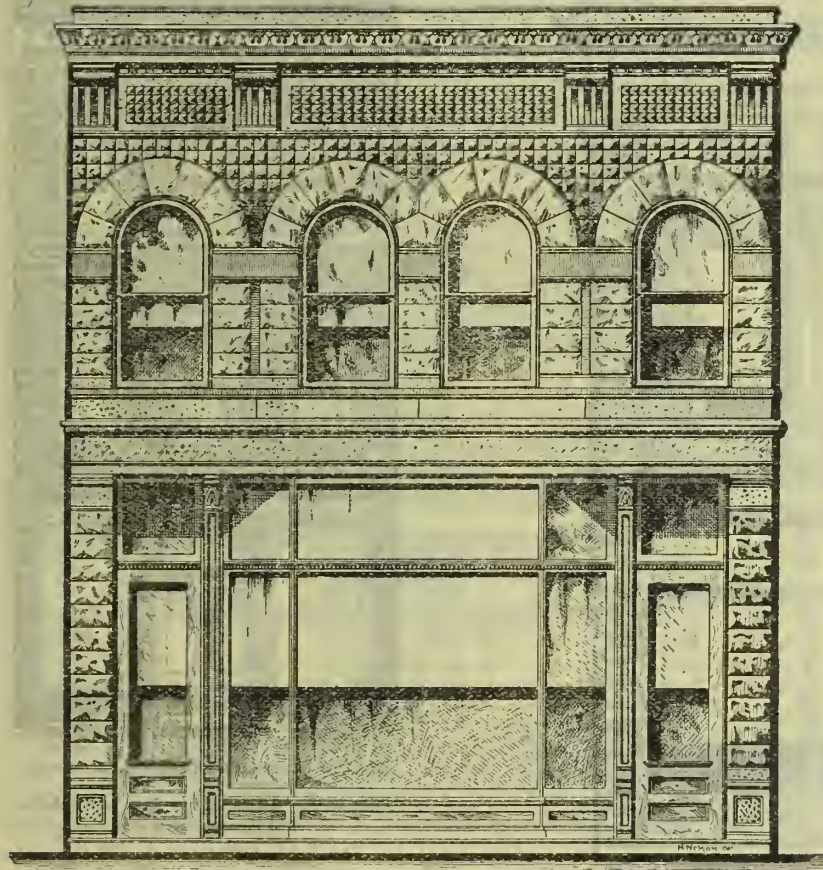

No. 7258. Stamped Rock Face Front. 21 feet wide.  
Price, \$160.00. Galvanized Iron Work only.

Prices given on these two designs do not include columns in first story, which will be quoted on application. These fronts are made of Stamped Rock-faced Galvanized Iron, ornamented with best and heaviest stamped zinc work, and are especially designed for Bank, Office or Store Buildings. Prices do not include glass, woodwork or hardware.

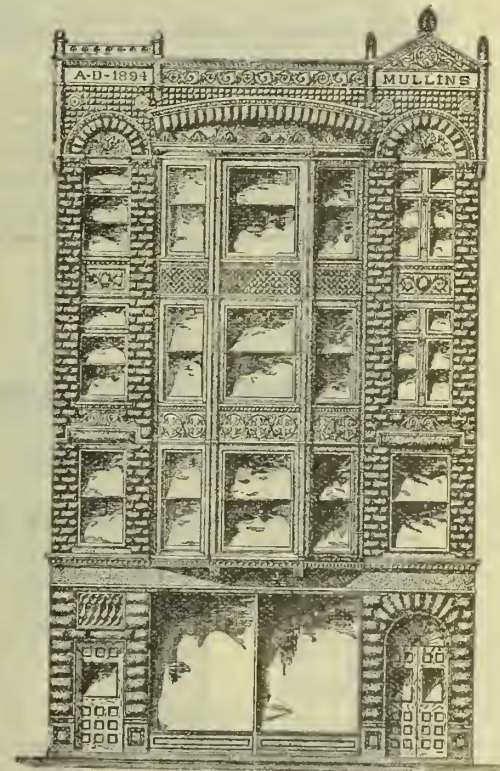

No. 7259. Stamped Rock Face Front. 21 feet 6 inches wide.  
Price, \$100.00. Galvanized Iron Work only.

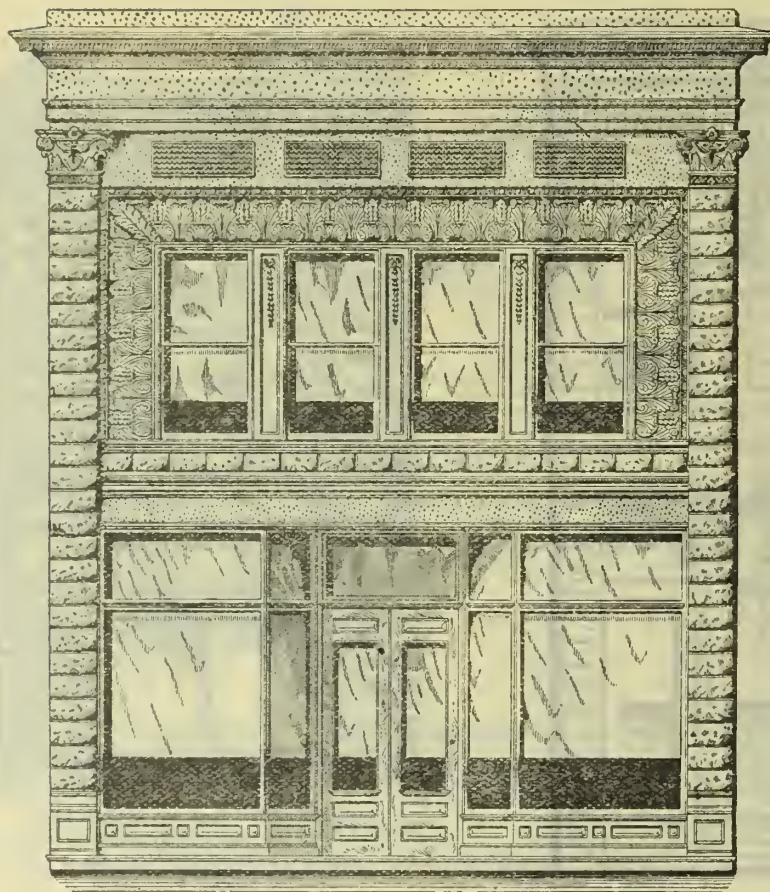

No. 7260. Stamped Rock Face Front. 25 feet wide.  
Price, \$134.00. Galvanized Iron Work only, including End Pilasters in first story.

Sheet Metal Fronts are particularly valuable for repairing or modernizing old brick or stone buildings, as the Galvanized Iron Work can be put up on face of old building, making an entirely new exterior but leaving old walls intact. Send us photograph or drawing of your old building, with figured measurements, and we will send you special designs, with price, for a new Sheet Metal Front. Prices include only Galvanized Iron Work and do not include first story sills, wood work or glass.

Stamped Rock Face Front, with projecting bay.  
Galvanized Iron Work only, including Rock Face Pilasters and arch in first story.  
No. 7158. 4 stories, as above. Price, \$500.00.  
No. 7159. 3 stories. Price, \$420.00.  
Width of fronts 34 feet.

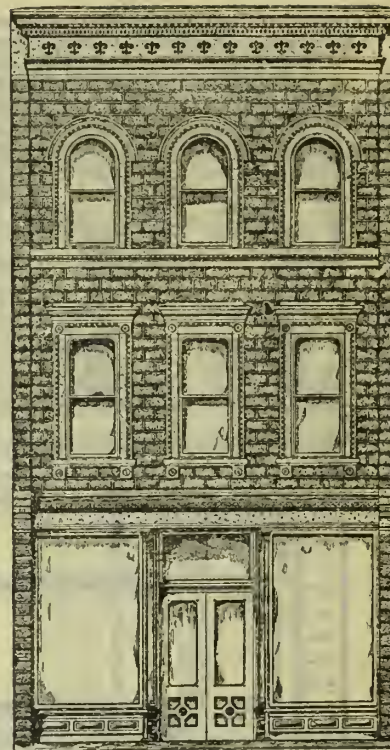

No. 7231. Sheet Metal Front. 25 feet wide.

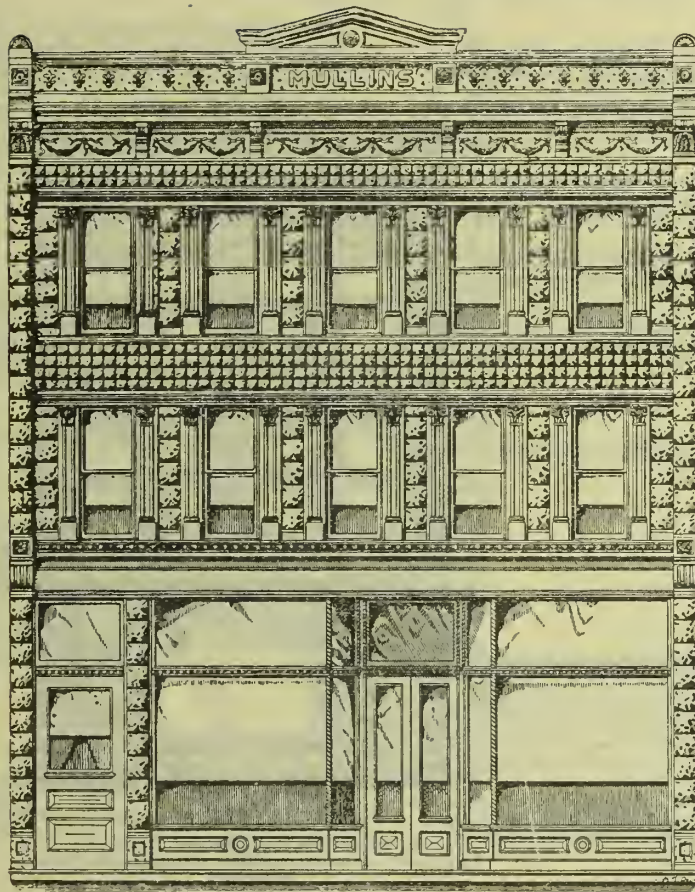

Price, \$200.00. Galvanized Iron Work only, including End Pilasters in first story.

In ordering Sheet Metal Fronts be particular to send plan and elevation of building, giving in figured measurements every detail possible, such as thickness of walls, width and height of windows and door openings, and total width of building together with thickness of floor joists and floor, height of stories and total height of building. We do not furnish wood work, glass, hardware or sills, as these items properly belong to the planing mill and hardware trades.

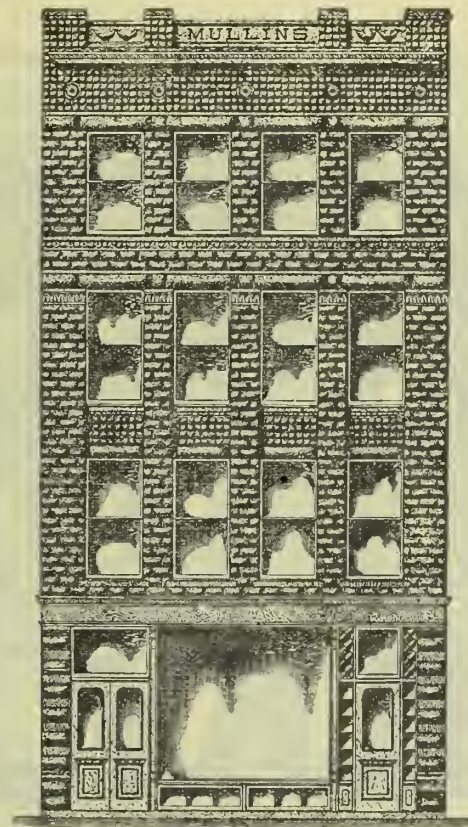

No. 7112. Stamped Rock Face Front. 22 feet wide.

Price, \$214.00. Galvanized Iron Work only, including End Pilasters in first story.

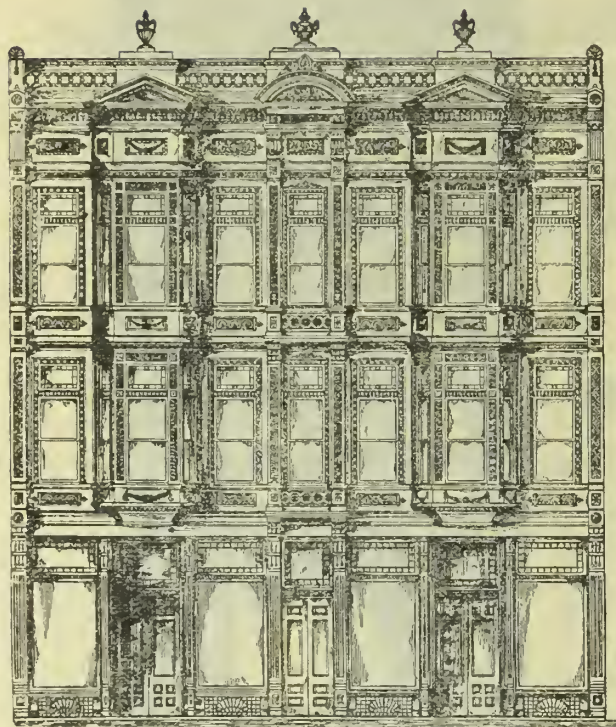

No. 7262. Stamped Rock Face Front. 30 feet 3 inches wide.

## NEW DESIGNS OF PATENT CRESTING BLOCKS AND TERMINALS.

The Crestings and Cresting Blocks shown herewith are entirely new and original in design and are made of stamped orrimped iron or zinc, being stamped in two plates, soldered or riveted together and shipped either separately as Cresting Blocks ready to be applied to the ordinary 2-inch ridge roll or made up as Crestings, as shown in example above. These designs of Crestings and Cresting Blocks are intended to meet the requirements of the Contractor, Builder and Roofer for a cheap ornamental ridge cresting, and will be found to be the cheapest and most artistic Cresting that has ever been offered to the trade. In using these Cresting Blocks it is not necessary that they should be soldered to the ridge roll, but simply slipped over the end of the roll before placing it in position on the roof, and after spacing them as required nail through the lower flange to the ridge pole, using a small slender wire nail for this purpose. In using them in this way the nail used in fastening the Cresting Blocks also answers the purpose of holding the ridge roll in position on the roof, and does not necessarily add any additional nail hole other than would be used in applying ridging in the ordinary way.

#### URNS AND VASES.

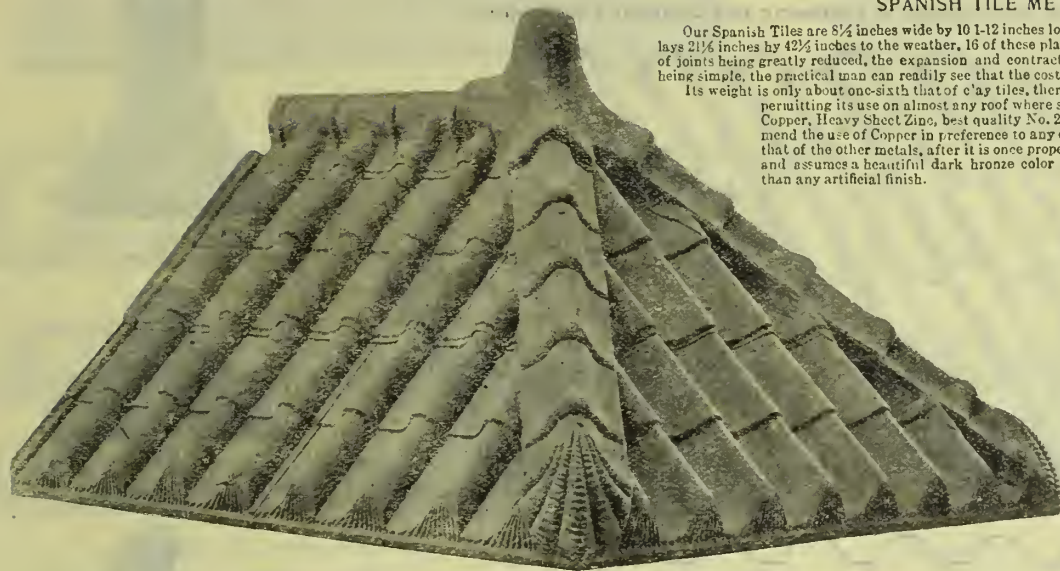

Galvanized Iron and Zinc Plain Painted, not Gilded.

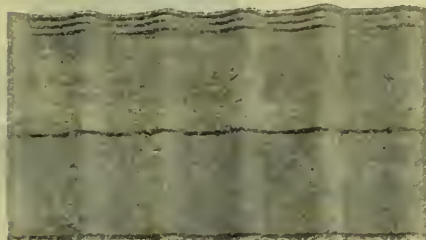

## SPANISH TILE METAL ROOFING.

Our Spanish Tiles are  $8\frac{1}{4}$  inches wide by 10-12 inches long, ten of these Tiles being stamped in one plate, which lays  $21\frac{1}{4}$  inches by  $42\frac{1}{4}$  inches to the weather, 16 of these plates covering a square of one hundred feet. The number of joints being greatly reduced, the expansion and contraction amply provided for and the manner of application being simple, the practical man can readily see that the cost of laying and risk of leakage is reduced to a minimum.

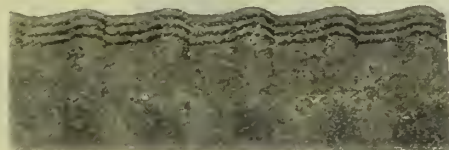

Its weight is only about one-sixth that of clay tiles, thereby admitting of the lightest possible roof framing, and permitting its use on almost any roof where shingles, tin or iron can be used. We manufacture it in Copper, Heavy Sheet Zinc, best quality No. 27 Gauge Terne Tin and Galvanized Steel, but we recommend the use of Copper in preference to any other metal, as, while the first cost of same will exceed that of the other metals, after it is once properly placed on the building it is absolutely indestructible, and assumes a beautiful dark bronze color on exposure to the atmosphere, which is more desirable than any artificial finish.

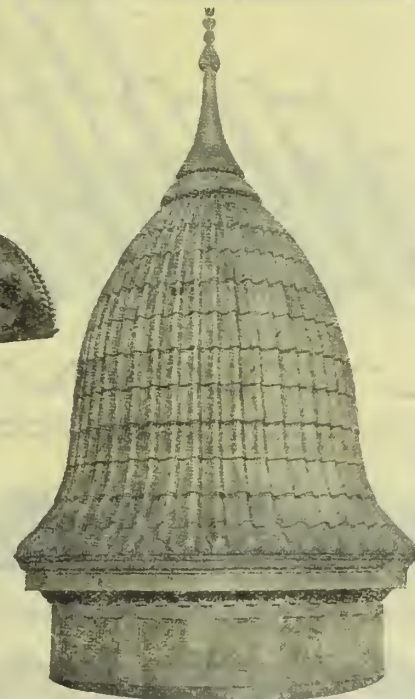

Patented May 22, 1894.  
No. 7166. Design showing Spanish Tile Roof, with Ridge Cresting, Finial, Hip Mouldings and Terminals used with same.

No. 7187. Regular Plate. Size exposed to weather,  
 $22\frac{1}{2}$  inches by  $21\frac{1}{4}$  inches.

No. 7147. Starting Plate. Size exposed to weather,  
 $42\frac{1}{4}$  inches by 11 inches.

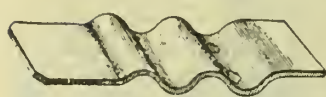

Curved Tower roofed with Patent Copper Spanish Tiles.

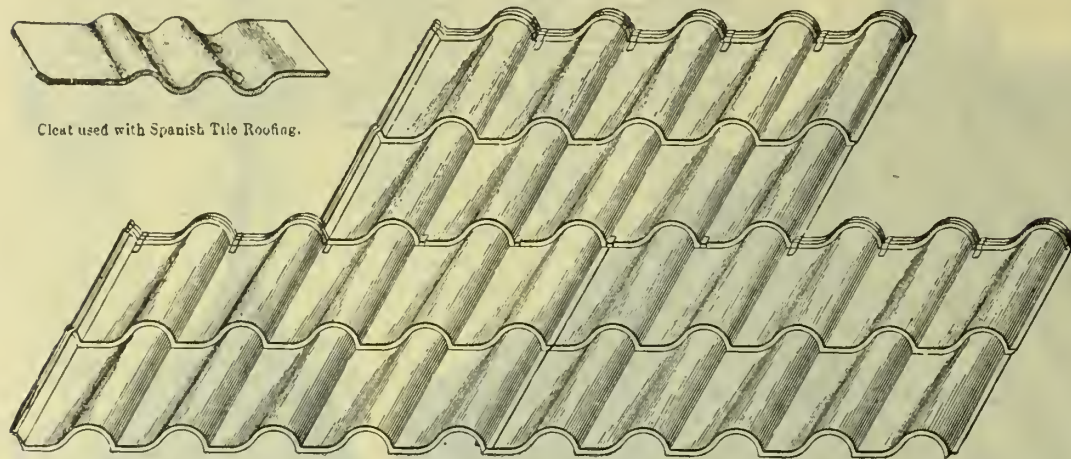

In ordering, always state number of lineal feet of Starters, Hips, Valleys and Cresting wanted. Also send Roof Plan and give pitch of roof. Valley Pieces furnished to fit different pitches of roof.

For circular and tapering roofs we graduate our Tiles, modeling them special to fit any particular tower, cone or bell-shaped roof. Prices quoted on application. Send drawing showing size and shape of the tower.

## Detail Showing Construction and Manner of Fastening Our Spanish Tile Roofing.

Cleat used with Spanish Tile Roofing.

As will be seen from the above cut, the construction and manner of applying our Patent Spanish Tile Roof is exceedingly simple and secure. It is absolutely storm and water tight, and, as expansion and contraction are perfectly provided for, is guaranteed, when applied according to directions, to remain perfect and secure for ages.

Cresting No. 7172. 9 inches high, 9 inches across bottom. Price, per foot, \$0.85.

Fancy Hip Mould No. 7175. Height, 5 1/4 inches; across bottom, 8 inches. Price, per foot, \$0.55.

## FANCY HIP AND RIDGE MOULDS, FINIALS AND TERMINALS.

Suitable for Slate, Tile or Shingle Roofs.  
Prices quoted on Patent Spanish Tile Roof on application. If you will send us Roof Plans, we will give you price for the roof including all Crestings, Hip Moulds, Terminals, Finials, etc.

Round Lower Finial No. 7151. Diameter, 15 inches; height, 18 inches. \$4.95 each.

No. 7185. Finial for Ridge and Hips. Height, 15 inches. \$4.95 each.

No. 7174. Ridge and Hip Finial. Height, 18 inches. \$5.50 each.

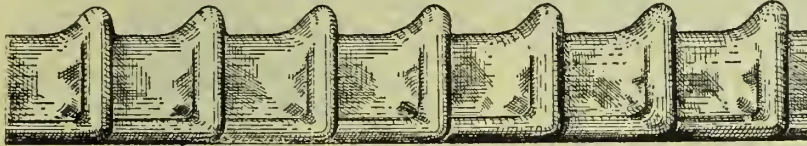

LEFT. Pat. May 22, 1894. No. 7197. RIGHT. Valley Pieces.

Cresting No. 7153. 7 inches high, 10 inches across bottom. Price, per foot, \$0.70.

Cresting No. 7120. 10 inches. Price, per foot, \$0.80.

Cresting No. 7122. 7 inches. Price, per foot, \$0.60.

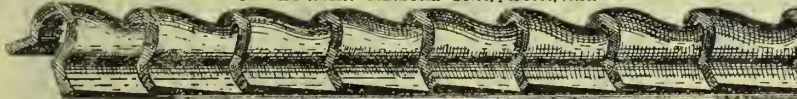

Hip Mould No. 7186. 4 inches high, 8 inches across bottom. Price, per foot, \$0.40.

Hip Mould { No. 7189. Height, 5 inches; across bottom, 5 inches. Price, per foot, \$0.40.  
 { No. 7152. Height, 2 1/4 inches; across bottom, 4 1/2 inches. Price, per foot, \$0.30.

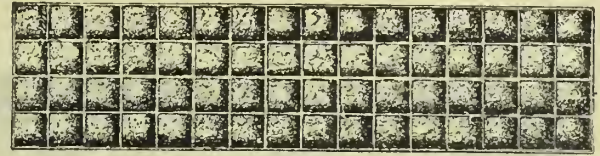

Hip Rolls No. 7119. 6 inch roll. Price, per foot, \$0.30.

Hip Rolls No. 7121. 4 inch roll. Price, per foot, \$0.40.

## FANCY RIDGE AND HIP MOULDINGS.

Applicable to all kinds of Roofs—Slate, Tile or Shingle. The Ridge and Hip Rolls designed for and used with our new styles of roofing are all stamped in long lengths, thereby reducing number of cross joints, making them much more secure against Leakage, and less liable to become crooked and out of line, which is so frequently the case with Terra Cotta and Metal Rolls made in short lengths.

No. 7131. Rock Face Siding, stamped in sheets laying 2 feet by 10 feet to the weather.

Price, per square, Black Steel Painted, \$4.75.

Price, per square, Galvanized Steel, \$6.75.

No. 7107. Rock Face Siding, stamped in sheets laying 2 feet by 10 feet to the weather.

Price, per square, Black Steel Painted, \$5.00.

Price, per square, Galvanized Steel, \$7.00.

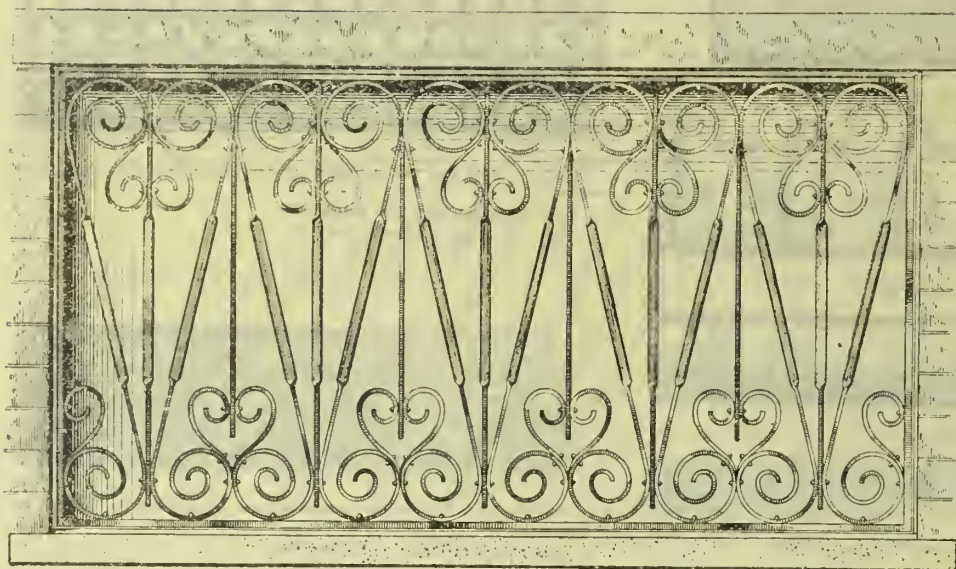

No. 7110. Rock Face Brick Siding, stamped in sheets laying 2 feet by 10 feet to the weather.

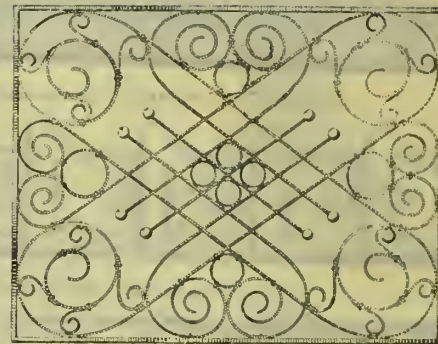

Price, per square, Black Steel Painted, \$4.50.

Price, per square, Galvanized Steel, \$6.50.

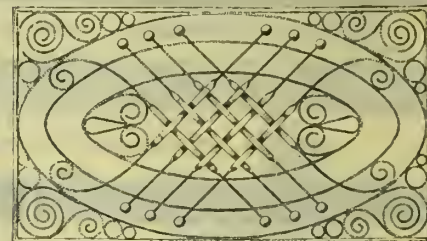

The above designs of Rock Face Siding are very deep and hold and are much superior to that usually offered on the market. They are very easily laid and are superior and much more ornamental as Siding than Corrugated Iron. Prices on Copper or Aluminum quoted on application.

### WROUGHT AND TUBULAR IRON AWNING BRACKETS OR SUPPORTS COVERED WITH CORRUGATED IRON.

Special designs of Artistic Wrought Iron Work on application. Write for prices. Correspondence solicited.  
The above awnings furnish an extremely durable, ornamental and effective protection against the sun and storm. The frames are made of heavy tubing and the brackets of wrought iron. If desired, they can be roofed with glass.

Our facilities for furnishing Artistic Sheet Metal Ceilings are probably unequalled. Combining with our new and artistic designs of Embossed Steel Ceilings thousands of Stamped Metal Ornaments suitable for ceiling ornamentation, gives us a variety to select from possessed by no other manufacturer.

We furnish all kinds of Steel Ceilings, from the cheap corrugated iron ceiling to the deep, bold and magnificent galvanized iron ceilings, enriched with heavy stamped zinc ornaments, suitable for large court rooms, halls, etc.

If intending purchasers will send us the floor plan of the rooms for which they wish ceilings, showing exact location of elevator, stair openings, or other offsets or projections, marked in figured measurements, we will send them a special design to suit their requirements. In sending diagram for estimate, always note the exact number of center pieces required, locate as near as possible the position of gas or electric light drops, and always give the distance from top of window casings to the ceiling, so that we will know the extreme depth of cornice to figure on furnishing.

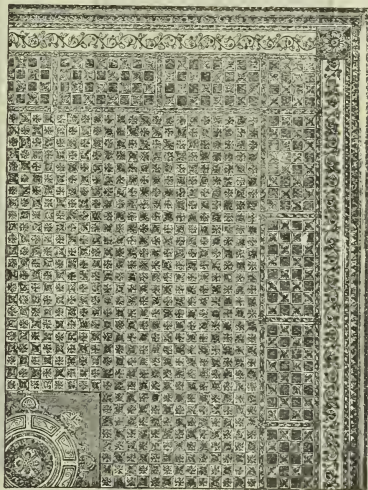

Designs furnished to suit special requirements. Write and get our designs and prices before ordering elsewhere

The above cut is an enlarged representation of Diaper "E," which forms the body or field of ceilings, as shown in designs Nos. 7116 and 7134, and is stamped in steel sheets 24 x 96 inches exclusive of laps.

### STAMPED ZINC CEILING CENTER PIECES.

Stamped Sheet Metal Work, as used for Coiling Center Pieces, possesses great advantage over the heavier and more expensive stucco and cast work, which will at once recommend it to those in want of ornamentation of this character. The principal advantage claimed for Sheet Metal Center Pieces is the extremely low price at which they can be sold, beauty of finish, durability, lightness, the ease with which they can be put up, and the fact that they may be shipped without danger of breakage. These centers are all finished before leaving the factory, and painted a lustrous white to correspond with plaster finish of ceiling, and are priced in this way. They can, however, be painted and ornamented to suit the taste of purchasers and to correspond with style and decoration of room where used. These centers are simply screwed to the ceiling after plastering is put on, and can at any time be taken down, cleaned and replaced without damage to the ceiling or Center Piece. The prices given are for Center Pieces finished a beautiful white, ready to put up, and delivered, carefully boxed or crated, on cars at Salem. Necessary white-headed screws, together with a small vial of paint and hair pencil, will be furnished with each shipment of Center Pieces, to be used in re-touching should they become soiled in fastening up. Correspondence solicited. Always state whether work is to be sent by Express or Freight.

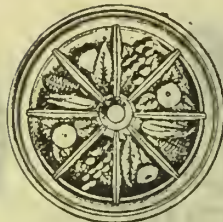

STAMPED ZINC CEILING CENTER PIĒCĒS.

Stamped Zinc Center Pieces will not crack or fall off. Easily put up on old ceilings without damage to paper or plaster.

### GALVANIZED IRON SKYLIGHTS.

Designs and estimates furnished for Conservatories, Greenhouses, Curved Skylights and Large Skylights, made of either Galvanized Iron or Copper, with Wrought bar Iron Cores, and Light Structural Iron Supports. Our Skylights are guaranteed to be of the best material and workmanship, and to be absolutely snow and water tight, all condensation being provided for and possibility of breakage of glass reduced to a minimum, as expansion and contraction of metal frame is allowed for and guarded against. We recommend bedding all glass in a good quality of putty, although small lights may be glazed without.

All duck shooters, fishermen and others who use rowing boats for sporting or pleasure have had trouble with their wooden boats drying out when put away in storage over winter, or left exposed to the sun or weather when in use; and again, becoming heavy and water-logged when kept in service for any length of time; opening up the seams and joints in one case, or too heavy for use in the other.

To remedy and overcome these defects, we have brought out our new Stamped and Embossed Sheet Metal Boats, and a trial or examination of them will at once convince the sportsman or boatman of their immense superiority over any wooden boats made. The lowest cost boat we make, which is made of galvanized steel, is thoroughly well made and finished, and is a perfect and serviceable boat that will stand the hardest and most constant use for years, while the manganese bronze and aluminum boats are practically indestructible and should last a lifetime.

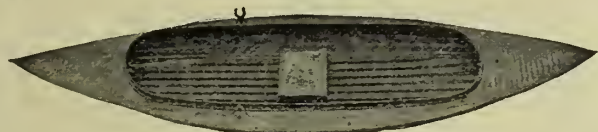

"GET THERE" SAFETY DUCKING BOAT.

All Ducking Boats painted a dead grass color. Size: 14 feet long, 36 inch beam, 11 inches high to top of deck, 14 inches high to top of combing; size of cockpit 9 feet 1 inch long.

Galvanized Steel, weight 70 lbs.....	Price, \$ 20.00
Manganese Bronze, weight 85 lbs.....	" 50.00
Aluminum, weight 45 lbs.....	" 100.00

Seat, Oars and Paddle included in above prices.

BUSTLE BOAT.

Standards side extension air chamber duck boat—46-inch beam.

Galvanized Steel, weight 90 lbs.....	Price, \$ 27.00
Manganese Bronze, weight 105 lbs.....	" 60.00
Aluminum, weight 55 lbs.....	" 117.00

EXTRAS ON STEEL DUCK BOATS.

Standards for attaching grass blinds or canvas gunwale.....	\$ 1.50
Allen's bow facing oars.....	6.50
Center board, folding.....	6.00
Rudder to raise and lower.....	3.00
Canvas gunwale.....	2.00
Extra seat.....	.75
Keeper on stern for sculling.....	.50
Mast and leg of mutton sail.....	5.00

DOUBLE-ENDER PLEASURE BOATS.

Size: 15 feet long, 42 inch beam; 25½ inch at ends, 14 inch amidship.	
Galvanized Steel—No. 1. Painted white; seats, top rail and bottom board painted; galvanized iron fittings, plain, serviceable finish. Weight, 140 lbs.....	Price, \$ 40.00
Galvanized Steel—No. 2. Painted white or any color desired; seats, top rail and bottom board varnished natural color, with best spar varnish; brass fittings, fine finish. Weight, 140 lbs.....	Price, 45.00
Galvanized Steel—No. 3. Finest painting, any color desired; mahogany wood work; brass or nickel-plated fittings; finest finish in every respect. Weight, 140 lbs.....	Price, 65.00
Manganese Bronze. Painted any color desired, or finished an oxidized bronze or copper color; finest bronze fittings. Polished oak seats, top rail and grating. In fact, the most magnificent and durable metal boat ever made. Weight, 150 lbs.....	Price, 110.00
Aluminum. Painted any color desired; cast aluminum bronze fittings. Polished oak seats, top rail and bottom grating. The lightest, noblest and most artistic boat ever made. Weight, 70 lbs.....	Price, 125.00

YACHT TENDER OR DINGEY.

Size: 9 feet or 11 feet long; 46 inch beam.	
Galvanized Steel—No. 1. Painted finish; weight, 145 lbs.....	Price, \$ 40.00
Galvanized Steel—No. 2. Polished oak finish; weight, 145 lbs.....	" 50.00
Galvanized Steel—No. 3. Mahogany finish; weight, 145 lbs.....	" 65.00
Manganese Bronze. Polished oak finish; weight, 145 lbs.....	" 110.00
Aluminum. Polished oak finish; weight, 80 lbs.....	" 125.00

The above prices include rudder and one pair of 8-foot spoon oars, copper tipped and leathered.

Full set of cork-filled corduroy seats for any of the above boats, \$20.00 extra.

Complete Catalogue sent on application.
